01 — PRIMARY LOCKUP

02 — THE NODE

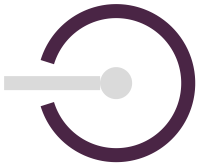

Two converging vectors resolve into a single pinpoint inside a closed circle: scattered longitudinal data becoming one definitive reading.

03 — MEANING OF THE MARK

The Closa Health logo centers on a visual metaphor called “The Node,” designed to illustrate the journey from medical uncertainty to definitive clinical resolution.

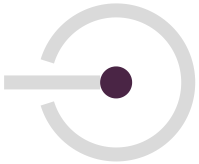

The Open Ring

Represents the ongoing cycle of a woman's biological data and everyday symptoms. The break in the circle illustrates an entry point for active, targeted intervention.

The Penetrating Line

Symbolizes Closa's diagnostic navigation engine. It represents the platform cutting through the noise of medical guesswork, inefficient hospital queues, and scattered logs to route the user toward a solution.

The Center Pinpoint

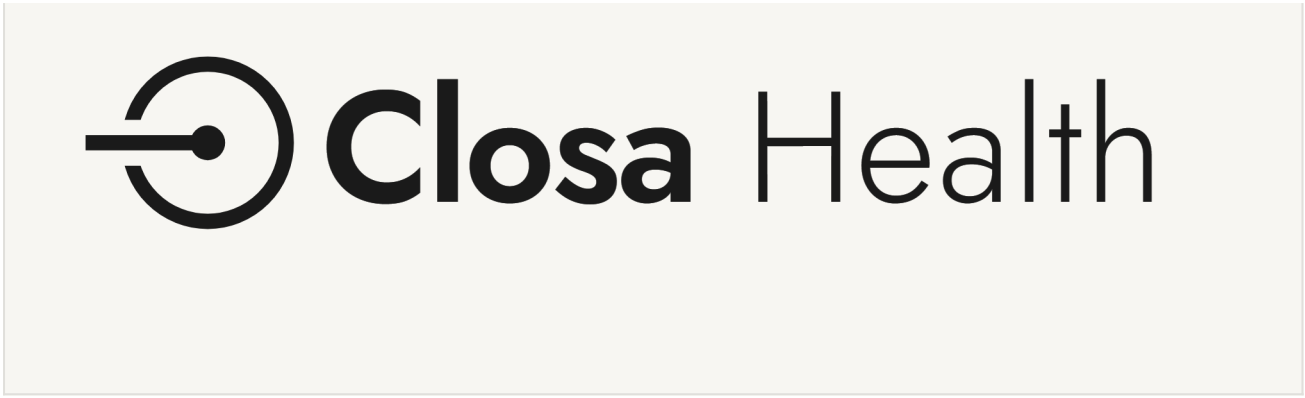

The line lands precisely in the middle of the circle, representing the moment of clinical truth. It visualizes the transformation of scattered longitudinal data into one clear, definitive diagnostic reading.

Together, these elements tell the clear story of "closing the gap." It assures busy users that their health journey with Closa has a specific destination, moving them directly from a passive question to an actionable cure.

Profile avatar: node only, bone on obsidian, centred in the circle at 46% of diameter.

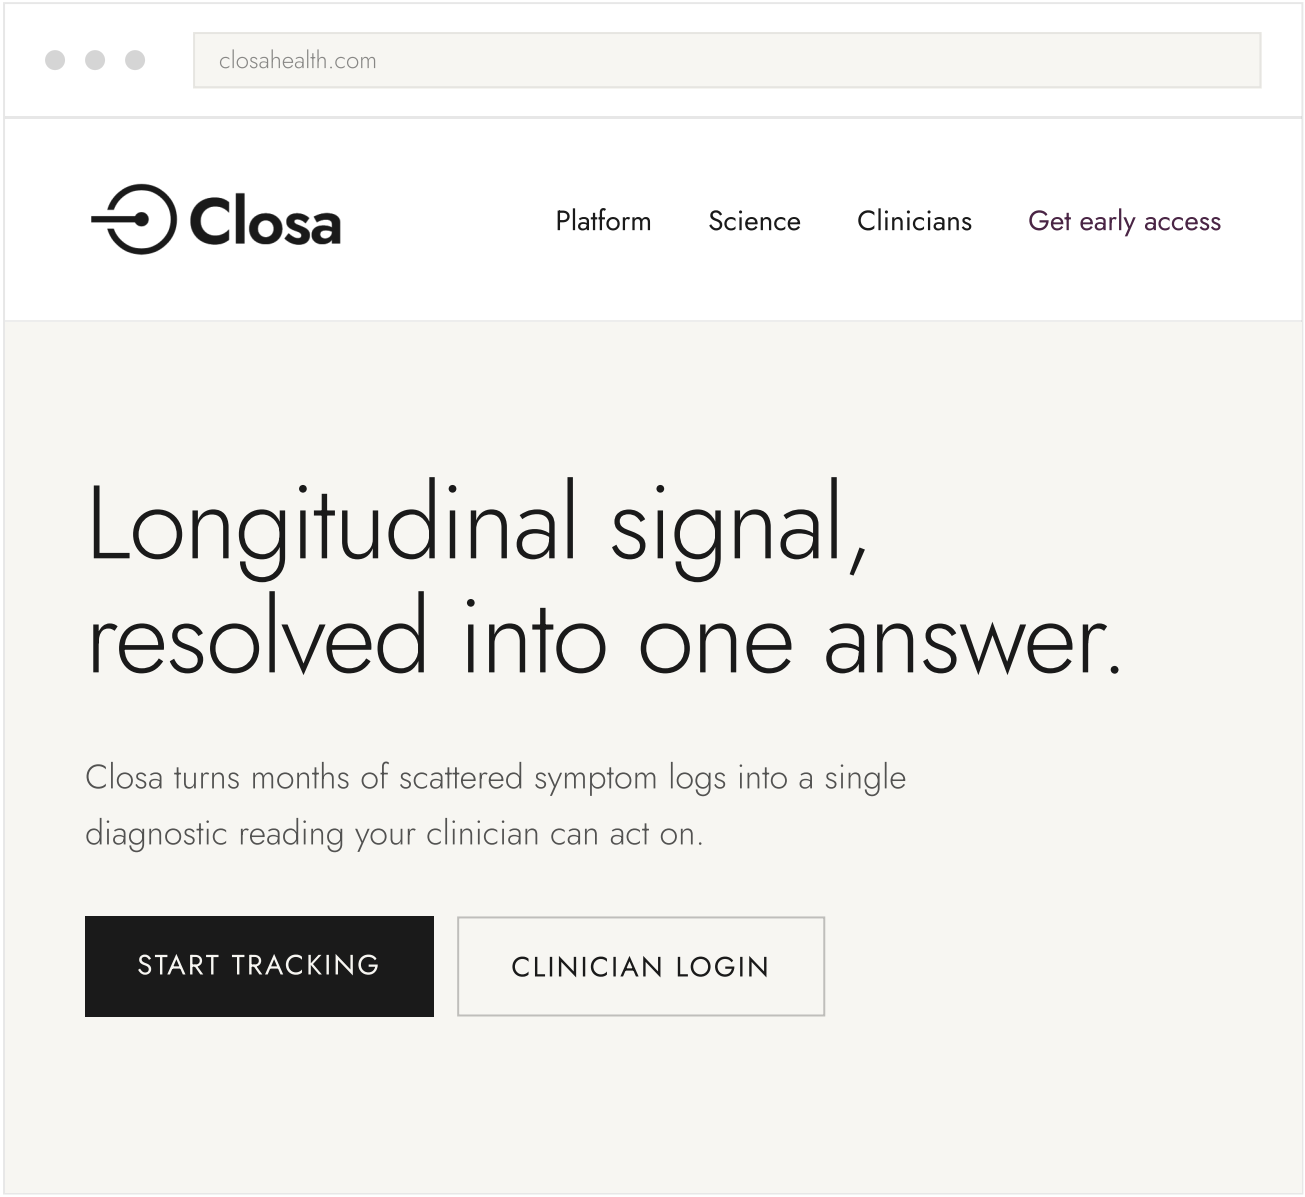

Closa

Six months of symptoms. One clear reading.

Endometriosis takes eight years to diagnose. We are closing that gap.
